

# Merit Talks

"Merit Talks" are the intrinsic value of Hood's Sarsaparilla. Hood's Sarsaparilla is the power to cure. Hood's Sarsaparilla possesses actual and unequalled curative power and therefore it has true merit. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or cure any of the many blood diseases, you are morally certain to receive benefit. The power to cure is there. You are not trying an experiment. It will make your blood pure, rich and nourishing. It drives out the poisons of disease, cures the nervous and builds up the whole system. The power to cure is there. You are not trying an experiment. It will make your blood pure, rich and nourishing. It drives out the poisons of disease, cures the nervous and builds up the whole system.

# Hood's Sarsaparilla

It is the best, in fact - the One True Blood Purifier. Prepared only by C. L. Hood & Co., Lowell, Mass.

Hood's Pills Do not purge, but give all freedom.

OFFICIAL PAPER OF GRANT COUNTY.

FRIDAY, JUNE 15, 1906

Let's all celebrate.

Write it "Governor M. A. Otero, Santa Fe, New Mexico."

Grant county leads the mining industry in the territory.

Come to Deming on July 8 and help us celebrate our natal day.

Don't forget that Deming will celebrate on the 8th this year.

The demand for cattle continues, and prices are high in proportion.

Secretary Wallace will not enter upon his duties for some weeks yet.

On July 1, the penalty will be added to all taxes then remaining unpaid.

Governor Otero is the first native born executive New Mexico has ever had.

We believe that a local board of trade would add much to advance the interests of Deming.

It "Black Jack" is surely dead, we wish he would so inform us, and relieve this dispute.

Deming's Fourth of July celebrations are always "corkers." This year will be no exception.

Perhaps you notice that the Headlight is giving its readers all the news going these days.

The Fourth of July celebration this year will be conducted on the largest scale ever attempted.

We would respectfully suggest that the local peace officers preserve just a little better order on the streets at night.

Please bear in mind that the Headlight is the only newspaper in Grant county which furnishes its readers with a complete telegraphic report.

All property and interest is rebated by territorial statute upon delinquent taxes paid before July 1st. After that date those in arrears pay for their fun.

Young Luck, Grant county's applicant for admission to Annapolis has failed to pass the physical examination, and Albuquerque takes another chance.

Reports from Silver City are to the effect that the board of county commissioners didn't "do a thing" but raise the property assessments by the dozens.

Reports indicate a large attendance of visitors on the Fourth of July from neighboring towns. Silver City has promised a delegation of one hundred.

A railroad south, electric lights and a sanitarium are about all that we of Deming want this year of our Lord. And we will come pretty nearly getting all three.

Deming's celebration on the 8th of July will not conflict with any other Grant county celebration, so that we will expect our friends from all over the county.

Grant county should have an exhibit at the territorial fair this year. Let an energetic commissioner be appointed who will carry the matter to successful completion.

The value to Deming of the colonization and irrigation of the Las Palomas and Boco Grande land grants across the line in Old Mexico would be almost beyond comprehension.

Maher and Sharkey will probably come together in a final fight next September. Brady has offered a purse of \$14,000 which has been accepted. The contest will take place in Nevada.

F. A. Anderson will retire from the management of the Hecan Weekly on July 1st and thereafter devote all of his time, attention and skill to the conducting of the Deming Headlight.

The El Paso Herald had an excellent illustrated write up on the Rio Grande, Rivera Macho and Pacific railroad last week. The Headlight will have one as the Deming railroad with some of

these days.

A public celebration should be given in Deming for the purpose of raising funds to put the appropriation of the local fire department in first class condition, and at the same time the department should be entirely reorganized.

The Deming mineral company will give another performance for the benefit of the school fund, on the evening of July 8. The minstrels intend that the Deming public school grounds shall be the headquarters in the territory.

Governor M. A. Otero was formerly installed as the chief executive of this territory at Santa Fe, Monday, with fitting ceremonies. While differing from Governor Otero in politics, the Headlight extends best wishes for an eminently successful and prosperous administration.

Pennsylvania passed an inheritance tax law and the supreme court has just no time in declaring it unconstitutional. It beats all how the laws of the states and territories were made apparently for the purpose of keeping wealth from being taxed, while in no constitution can there be found anything to forbid a peddler from being made to pay license.

William Griffith has been appointed United States Marshal for the territory of Arizona. The New Mexico appointment is crisscrossed between S. H. Elkins, of Santa Fe county, a brother of the United States senator and G. M. Forsaker of Grant county, likewise a brother of the United States senator. The Headlight would like to see the home man win.

There are two mines in the Republic of Mexico, south of Deming, the Salsabul and Corralitos, which produce not less than \$1,500,000 a year each. Both properties employ about 5000 men and ship about 300 tons per day, which averages over \$50 per ton. It is claimed, and with reason, that the opportunities in that state were never better than at present. The same thing may be justly said of some half dozen other Mexican states.

Vice President C. C. Crocker of the Southern Pacific has announced that the Sonora railway in Mexico would be turned over to the Southern Pacific by the Santa Fe the beginning of July. The exchange of a line of Mexican road for the line between Mohave and the Needles was to have been made on June 1, but complications arose which made it necessary to postpone the event for a few weeks. The two companies are now awaiting the permission of the Mexican government to make the trade and when that permission is secured the property will be turned over.

The Mormon colonies to the south of Deming, in Old Mexico, have four steam saw mills and two planing mills to successful operation at present; a great many teams being engaged in hauling lumber to the mines and to the settlements, which are fast building up good homes that would be a credit to an older country. They have good schools in operation and no saloons nearer than the Mexican towns. The colonists this year have very fair prospects of good farm crops; the fruits have been damaged by the late frosts. There has already some rain fall which is a little earlier than usual which has improved the ranges for stock. The colonists have been successful in raising a better class of horses and cattle and are producing a large amount of butter, cheese and potatoes for market. That with the high prices they are getting for their improved stock, is making them quite successful.

Mr. Davis, the industrial commissioner of the Santa Fe, seems to be working along lines that will eventually be productive of much good to the country through which the Santa Fe runs, and also to the road itself. A railroad constructed through an undeveloped country can pursue no wiser course than to aid, as far as practicable, in the development and utilization of the natural resources of the territory tributary to its line. By that means it can secure a local traffic and make itself independent of the competition of roads that may be disposed to struggle with it for business between terminal points. It is hoped that the industrial department of the Santa Fe will be eminently successful, and that it will be the means of causing many people to establish their homes in the southwest, developing the resources of the country and making it in a large measure independent of other parts of the Union.

# AN APPEAL FOR AID.

To the Members of the Tennessee Centennial Exposition and other citizens of the different counties of the Territory interested in its progress.

I have just returned from a visit to the Centennial Exposition at Nashville. The exposition is pronounced generally by all who have visited it an unequalled success. Those who are competent to judge say that it excels in every way any similar state exposition ever held in the country. The exhibits are quite full and complete and the attendance is very gratifying to the management.

It is of the utmost importance that the products and resources of New Mexico should be fully represented. The exposition is being largely visited from all over the central as well as the southern states, and it is especially from this section of the country that New Mexico hopes to secure immigration.

Our commissioner, Mr. J. J. Leeson, has a splendid exhibit of the minerals of New Mexico, representing every mining camp and every developed mine in the territory, but this all he has. He should be supplied with specimens of all other products of New Mexico, wheat, oats, alfalfa, beans, other vegetables and fruits, which should be sent to him as soon as practicable from the different counties. He is enthusiastic in his work, and the mineral exhibit which he has received general commendation in a great many leading newspapers published

all at different places in the states where referred to. Many of these newspapers have large circulations and have published centennial editions, giving a large amount of space to the exhibit which we have there.

Mr. Leeson, however, is without means to further defray his expenses there. All of the money he has had was his portion of the balance left over from the World's Fair appropriation, amounting to about \$400 or \$500. The last legislature made an appropriation of \$1,000 for this purpose which is not yet available and may not be for several months to come. It is therefore, necessary for the members of the commission and other citizens interested in the matter to take steps to raise enough money to defray Mr. Leeson's expenses while at Nashville and procure and send other exhibits to him. If he is not provided with means to pay his expenses it will be necessary, he writes me, to close up the Tennessee exhibit and come away. This would undoubtedly be a misfortune and would not speak very well for the territory. It would seem an easy matter for the citizens in the different counties in the territory to raise by subscription or otherwise a sufficient amount of money to complete a creditable exhibit from the territory and pay Mr. Leeson's expenses until the end of the exposition, about the last of November. The appropriation might be looked to for repayment. The Atchison, Topeka & Santa Fe railroad has agreed and will transport exhibits free of freight charges to Milton, Ill., where the Santa Fe system connects with the Illinois Central, and from there to Nashville exhibits will be transported at half rates.

Since my return I have read a circular letter sent the members of the Tennessee Centennial exposition by Hon. Leeson Miller, acting governor. He calls attention to the fact that the appropriation for the territory is not available. He also calls attention to the fact that section 4 of chapter 48, laws of 1897, authorizes and empowers the boards of county commissioners to make appropriations for this purpose, and suggests that a very small appropriation from each county will add materially to making the New Mexico exhibit a success and in advertising their several localities.

I will add that Mr. Leeson is a very economical and efficient representative of the territory.

H. C. Stewart, Socorro, N. M., will attend to the work and give information to those desiring to make shipments for exhibition. All shipments must be made to J. J. Leeson, New Mexico Exhibit, Exposition Grounds, Nashville, Tenn.

I would respectfully ask the different papers of the territory to publish this statement. Respectfully, W. B. CHILDERS.

# Resident Excursions.

The initial "Resident Excursion" over the Southern Pacific to Santa Monica, Long Beach, San Pedro, San Buenaventura or Santa Barbara, has been fixed for Thursday, June 28th, and each alternate Thursday thereafter during the summer season. The tickets to these points will extend for ninety days from date of sale and stop over privileges will be allowed west of Colton.

The rate from Deming for the round trip has been fixed at \$41.50. Those who expect to take a vacation this summer should not fail to avail themselves of such opportunities for a pleasant trip.

Circulars and full information will be furnished by C. B. Bosworth at the S. P. ticket office.

One Fare For Round Trip Plus \$2.00.

# Travel

It is a joy to those who know how to get the most out of it. Luxurious Pullmans, comfortable chair cars, modern day coaches, regular and appetizing meals at dining-rooms or in dining cars, in connection with shortest distance and time between given points, makes traveling a pleasure at any season of the year. This is what you pay for and get when your ticket reads

via Santa Fe Route.

National Educational Association, Milwaukee, Wis., July 6 to 9, 1907.

There is a fascination about a vigorous, healthy woman, which touches every heart. Physical weakness is a great drawback to a woman's social success. As she loses her healthy plumpness she loses attractiveness. A woman had never better be too thin than too fat. If you are not physically up to the mark, keep the uncertainty, dig out your pores and get a general tonic. "Pills" and "Laxatives" will find the right health and energy you need. Dr. Pierce's Golden Medical Discovery. It cures the blood and drives out all morbid elements and creates new blood, hard muscular flesh and active nerve force.

It gives color to the cheeks and firmness to the form, without adding one ounce of fatty fat above the normal standard of health. Taken alternately with Dr. Pierce's Favorite Prescription for distinctively female ailments, it constitutes a scientific and marvellously successful course of treatment for delicate women.

Mrs. Ella Howell, of Perth, Perth Co., Ind., writes: "In the year of 1901 I was taken with stomach troubles, and a weight which seemed like a rock. Everything that I ate gave me great pain. I had a burning down my throat, and my stomach; had a ridge around my throat, and in a short time I was unable to eat. I was treated by three of our best physicians, but got no relief. Then Dr. Pierce's Golden Medical Discovery was recommended to me and I got it, and commenced the use of it. I began to see a change for the better. I was able to eat and sleep, and in a few weeks I could walk across the room without assistance. I took Dr. Pierce's Golden Medical Discovery and his 'Favorite Prescription' and one bottle of the 'Pleasant Pellets.' I began to improve very fast after the use of a few bottles. The physician who attended me said I had 'dropped' and that my disease was leading to pulmonary consumption. I had got a cough, and the home physicians gave me up. I took Dr. Pierce's Golden Medical Discovery and his 'Favorite Prescription' and one bottle of the 'Pleasant Pellets.' I began to improve very fast after the use of a few bottles. The physician who attended me said I had 'dropped' and that my disease was leading to pulmonary consumption. I had got a cough, and the home physicians gave me up. I took Dr. Pierce's Golden Medical Discovery and his 'Favorite Prescription' and one bottle of the 'Pleasant Pellets.' I began to improve very fast after the use of a few bottles. The physician who attended me said I had 'dropped' and that my disease was leading to pulmonary consumption. I had got a cough, and the home physicians gave me up.
